OUR SERVICES

in b360, A variety of services are provided such as structural work, electrical work, mechanical work, material and equipment supplies, inspection, planning, and design.

DESIGN-BUILT

Our Design-Build service is methodical and streamlined from concept to delivery. Our team has over 20 years of design experience therefore projects are designed efficiently to address clients budgets and needs.

GENERAL CONTRACTING

B360 provides a comprehensive building construction service by undertaking all types of residential, commercial and industrial projects.. The experienced management team, the highly trained and specialized personnel, as well as the high-end supply chain of subcontractors and suppliers, are allocated accordingly to every project aiming to successfully complete the construction works involved and satisfy every client. The company's integrated approach involves working in partnership with the consultants, architects, engineers, interior designers and specialized contractors, based on the project needs.

FIT OUT

Our experienced team of engineers and various specialists are trained to thoroughly understand the objectives of the Client and deliver within budget and on schedule.

We work with a selected range of sub-contractors for specialized work and they have worked with us on many projects and are considered to be part of our team, as they can adhere to our program and quality requirements.

B360 HSE OBJECTIVES

B360 BUILDING CONTRACTING LLC management holds in high regard the safety, welfare and health of its employees. We believe that every employee is entitled to work under the safest possible conditions. All possible efforts will be made in the interest of accident prevention in all of our projects.

The Company is committed to implement the following Health and Safety policy:

Identify and evaluate health risks related to its operations that potentially affect its employees, sub-contractors or the public.

Implement programs and appropriate protective measures to control such risks, including appropriate monitoring of its potentially affected employees.

Communicate in a reasonable manner to potentially affected individuals or organizations, and the scientific community, knowledge about health risks gained from its health programs and related studies.

Determine at the time of employment and thereafter, as appropriate, the medical fitness of employees to do their work without undue risk to themselves or others.

Provide or arrange for medical services necessary for the treatment of employee occupational illness or injuries and for the handling of medical emergencies.
